GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

No L 7752 / M 212-33-3 Bangalore, Dated, 26th April 1934

From

The *Chief Secretary to the Government of His Highness the Maharaja of Mysore*

To

The Municipal Commissioner,
Bangalore City (through the President).

Sir,

With reference to your letter No.G.To.291 dated 5th March 1934 forwarding a statement showing the amount collected by the Municipality in the shape of water rate from 16th March 1933 to end of 31st December 1933, and stating that the Municipality will be unable to pay four lakhs of rupees annually until the full anticipated revenue under all the 8 items referred to in Para I of Government Order No.L.1129-31/M1,260-32-13 dated 9th August 1933 is realised, I am directed to state that Government regret that they cannot forego any part of the payment due to them. The work of metering unmetered connections is understood to be going on briskly and should result in considerable addition to the municipal revenues. The reduction in the quantity of water allowed to be consumed free of charge which is separately under consideration will further augment the municipal resources.

As regards water-rate on Government buildings, it is reported by the Chief Engineer that you have not furnished the statements showing the 'Water-rate' assessment on each building called for by him in his letter No.5516 dated 2nd December 1933 and that it is only after receipt of these statements that action can be taken regarding the payment of the amount by the Public Works Department. I am to request that the matter may be expedited and the information required by the Chief Engineer furnished without further delay.

From the stages of the items referred to above, it is clear that the extra revenue expected from those sources can be fully realised only

from the next official year. Till then the balance due to Government, over and above the realisations from the sources mentioned in the Government Order of.9th August 1933 referred to above, has to be made good from the general revenues of the Municipality, as directed in para I(5) of that order.

I am to add that Government have full sympathy with the Municipality and shown all possible concessions in regard to the water supply charges payable by it. It is hoped that the Municipal Council will on their part realise that they have been very generously treated and abide by the conditions under which drinking water is being supplied to them.

I have the honour to be,

Sir,

Your most obedient servant,

Sd. R. Ranga Rao

Chief Secretary to Government.

Memo --- No. ಡ ೪೨೫೨— ಆಕ್ಟ್ ೪-೩೪

Copy of the above is forwarded with compliments to the Chi Engineer in Mysore for information.

By Order,

Chief Secretary to Government.

Chief Engineer of Mysore,
Bangalore

To The Chief Secretary to Government,
CHIL 1 MAY 1934
BANGALORE.

Sir,

Revised rules and bye laws for the regulation of Water Supply in Bangalore City.

***

DNO 4471
M 260-32-19 Bangalore

In continuation of this office No.9057 dated 28th March 1934, I have the honour to forward herewith copies of letter No.3965 of 2-4-34 from the Municipal Commissioner, Bangalore City, and No.1126 dated the 17th April 1934 from the Executive Engineer, Water Supply Division, reporting on the subject.

I may mention that the draft rules were sent to the Municipality as long ago as 13th October 1933 and, after keeping them till now without giving a reply, for the Commissioner to say that he would return them immediately if the opinion of the Municipal Council is not needed is hardly a justifiable attitude.

It is now too late for the Municipal Council to suggest that the free allowance should be increased from 2500 to 3500 gallons as ~~suggested~~ stated by the Commissioner, when the Government have fixed the sum of Rs 4 lakhs payable by the Municipality on the basis of a minimum of 2500 gallons.

Unless Government issue stringent instructions in the matter, it is not possible to realise even a part of the anticipated increased revenue. I might also state that the Municipality have till now made no payment towards water supply bills of the current year and even part of the last year's dues are in arrears.

I have the honour to be
SIR,
Your most obedient servant,
M G Rangaiya
24/4/34
Chief Engineer of Mysore.

B.N.H.

Letter No.3965/2-4-34 dated 31st March 1934 from the Municipal Commissioner, Bangalore City, to the Chief Engineer of Mysore, Bangalore.

With reference to your letter No.9058 dated 28-3-34 in the matter of draft revised rules and byelaws for the regulation of water supply in Bangalore City, I have the honour to state that the draft revised rules and byelaws are still before the byelaw committee, but I shall return them to you immediately if you do not need the opinion of the Municipal Council on the draft rules and byelaws. In the matter of reducing the free allowance from 4000 gallons to 2500 -- gallons the Municipal Council have all along urged that the minimum free allowance must not be reduced below 3200 gallons and they have not yet accepted the decision of the Government that it should be reduced to 2500 gallons.

Letter No.1853 dated 12th October 1933 from the Municipal Commissioner Bangalore City, to the Executive Engineer, Water Supply Division Bangalore.

With reference to your letter No.639 dated 16-9-33 stating that a reference has been made to Government in the matter of ~~xxxxxx~~ reduction of free allowance for domestic connections from 4000 -- gallons to 2500 gallons, I have the honour to request that pending final orders in the matter, the allowance may be reduced and the excess water charges calculated on that basis at least from 9th August 1933 the date on which orders regarding the new water supply scheme was passed. vide G.O.No.L.1129-31/M1.260-32-13 dated 9-8-33

C O P I E S

For Chief Engineer of Mysore

B.N H.

dated 9th February 1934, stating that it was quite necessary to give due publicity at least with regard to the reduction, even in the absence of sanction to the revised bye-laws and orders were solicited in the matter A further reference in the matter was als made in this office No. 1027 dated 17-3-1934 and orders have not yet been received in the matter Under the circumstances, there is no way for this office but to advise the Range Officer to continue to prefer bills on the existing minimum of 4,000 gallons I may, however, add that the expected revenue under itemIV Para (1) referred to in G.O No L 1129-31/Mc260-32-13 dated 9/12 -8-'33 cannot be realised on the old existing basis of minimum and maximum allowances

I submit, therefore, that, with a view to realise the required revenue, it is imperative that the rules regarding the minimum free allowance should be altered first, even before the whole set of the modified bye-laws for the regulation of water supply are approved by the Municipal Council. The Municipality may therefore be urged to settle this point first, as otherwise the danger of loosing a considerable amount of revenue will have to be faced

As regards the revised bye-laws now said to be before the Bye-laws Committee, it is not clear what the Municipal Commissioner means when he says in the letter under reference that he will return the bye-laws immediately if we do not need the opinion of the Municipal Council We have a copy of bye-laws retained for reference in this office The copy with the Municipal Commissioner may kindly be arranged to be returned very early with the opinion of the Municipal Council, for which purpose it was sent to the Municipality

Early orders are requested in the matter

No L 8036/Rul 217-33-5 Bangalore, Dated, 8 — 5 — 1934

From

R. Ranga Rao, Esquire, B.A., B.L.,
Chief Secretary to the Government of His Highness the Maharaja of Mysore

To

P.H. Krishna Rao, Esquire, M.A.,
Municipal Commissioner, Bangalore City.

Sir, Through the President, City Municipal Council,

In continuation of this office letter No. L. 7752/Rl. 217-33-3 dated the 27th April 1934 regarding the payment of water charges due by the Bangalore City Municipality, I am directed to state that the Chief Engineer has written to say that the draft rules for the regulation of water supply in the City sent to you on the 13th October 1933 have not yet been returned with the result that the reduction of the free allowance of water from 4000 to 2500 gallons has been delayed. He also states that no payment towards the water supply bills of the current year has been made by the Municipality and even part of the last year's dues is in arrears. I am to request you to kindly see that the draft rules referred to above are returned to the Chief Engineer with the op'nion of the Municipal Council without further delay. I am also to enquire why the water supply bills of the current year and the arrears of last year have not been paid yet and to add that immediate action should be taken to adjust the same.

I have the honor to be,
